

**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

In re Application of

Gustavson, et al.

Serial No.: 10/671,889

Group Art Unit: 2183

Filed: September 29, 2003

Examiner: Vicary, Keith E.

For: METHOD AND STRUCTURE FOR PRODUCING HIGH PERFORMANCE LINEAR  
ALGEBRA ROUTINES USING LEVEL 3 PREFETCHING FOR KERNEL ROUTINES

Honorable Commissioner of Patents  
Alexandria, Virginia 22313-1450

**STATEMENT OF SUBSTANCE OF INTERVIEW**

Sir:

In response to the requirement in 37 C.F.R. §1.2, 37 C.F.R. §1.133, and MPEP §713.04, that Applicants provide a statement of the substance of an interview, Applicants hereinbelow submit the following summary.

Appellants gratefully acknowledge Examiner Vicary for taking time from his busy schedule to conduct a telephone interview with Applicants' representative on July 9, 2009, for the above-referenced Application.

Concerning the substance of the interview, Applicants have submitted a revised section of the recently-filed Supplemental Amendment Under 37 CFR §1.116, to correct the typographical error for changing the wording to "k=2" on page 2.

Applicants' representative also indicated acceptance of the Examiner's proposed claim changes to be executed by Examiner's Amendment and agreed to file terminal disclaimers for the patent on register block format (US Patent No. 7,469,266) and the two continuation applications (US Patent Applications S/N 12/196,095 and 12/348,869).

The Examiner indicated that he thought the above-referenced Application should now be in condition for allowance and would recommend such allowance. Applicants' representative thanked the Examiner for his efforts in negotiating the allowance of this application, particularly since, in the opinion of Applicants' representative, this Examiner has demonstrated uncommon attention to detail not typically demonstrated during prosecution by other Examiners.

Respectfully submitted,

Date: July 9, 2009

Frederick E. Cooperrider (703) 761-2377  
(Reg. No. 36,769)
